### Gender-Based Violence in Schools and the Intersectional Experiences of Black-Canadian Girls

- This Webinar discusses the unique experiences of female-identified adolescents of African descent in Canada, and their experiences with gender-based violence in schools. Specific attention is given to cultures of violence, how they manifest, and the need to attend to prevention, as opposed to the current focus on punishment, when addressing the intersectional experiences of Black girls.

### **"We Need The Space to Exist": Supporting and Empowering Black Youth Survivors of GBV (podcast episode)**

- In this podcast episode, Shenikqwa Phillip discusses the need to create healthier and safer spaces for Black children and youth survivors of gender-based violence. She shares the importance of learning and understanding the historical and ongoing forms of systemic and institutional racism and other forms of oppression that impact how Black survivors access and receive supports.

### **#MaybeNextTime: There Shouldn't be a Next Time**

- This presentation explores five essential approaches and best practices for supporting Black women and girls during the disclosure of sexual violence. Additionally, it outlines strategies for designing and delivering responsive services that prioritize their needs and well-being, aiming to shift away from practices that inadvertently re-victimize them. These approaches are crucial for fostering environments where Black women and girls can have equitable access to justice.
